

Digital Hygro-Thermometer Large, BDHT-L

- Displays indoor and outdoor temperatures simultaneously with indoor humidity level
- Stores maximum and minimum values
- Fahrenheit and Celsius modes
- Fold-out stand for tabletop display
- Wall-mountable

Specifications

Temperature

Outdoor Range: -58°F to 158°F (-50°C to 70°C)

Indoor Range: 32°F to 122°F (0°C to 50°C)

Resolution: 0.18°F (0.1°C)

Accuracy: $\pm 2^\circ\text{F}$ ($\pm 1^\circ\text{C}$)

Humidity

Indoor Range: 20% to 98% RH

Resolution: 1% RH

Accuracy: $\pm 5\%$ RH

Remote Sensor Length: 9.75'

Battery Required: 1 x 1.5V AAA (included)

Operation

The main hygro-thermometer unit is intended for indoor use. Install only the remote sensor outdoors to measure outdoor temperature.

Accessing Stored Values

- Press the **MAX** button once to view the recorded maximum values. Press the button again to return to current readings.
- Press the **MIN** button once to view the recorded minimum values. Press the button again to return to current readings.
- Press the **RESET** button to clear the stored values shown on the display.

Selecting the Temperature Scale

Use the switch on the back of the unit to select Fahrenheit ($^\circ\text{F}$) or Celsius ($^\circ\text{C}$) mode.
